

Programme

The Annual ISSOP Conference

Nordic School of Public Health NHV,
Gothenburg, Sweden,
June 16-18 2014

Measurement of health - A Child Public Health perspective

Again, most welcome to the ISSOP annual conference at the Nordic School of Public Health NHV in Gothenburg. We have tried to arrange an event that will stimulate and encourage you in your daily work with children and their health and wellbeing.

The days are filled with interesting and challenging lectures and discussions, but there is also ample time to meet with old and new friends, to enjoy the beautiful surroundings and to relax in breaks, lunches, dinners and excursions.

To make all things happen, together with more than 100 delegates from various parts of the world, we have designed a programme that we hope will let you find your way around and select your preferences, at the same time as it enables you all to enjoy the key issues of the general idea of the conference, Measurement of health – A Child Public Health perspective.

Thus, the structure of the programme is as follows:

After the formal inauguration on Monday morning the conference scene is set by Michael Rigby. The remaining programme is divided into 8 Sessions, from B to I, covering an essential part of the conference theme. Each Session starts with a key-note presentation to all participants in the great lecture hall, the Aula. This introduction is presented by a selected specialist, who will then also lead the discussions and presentations of submitted papers designated to the same topic. This discussion part of the Sessions will be conducted in 2 parallel tracks, one in the Aula and one in the Greenland Room. Participants choose themselves which to attend.

Submitted posters will be exhibited close to the lecture rooms, and ample time in connection with breaks for coffee and lunch has been allotted for their demonstration.

Lunch will be served in The Ruckman's Restaurant, on Campus by the river.

The Monday boat excursion will start from the river bridge on Campus, and buses for the Tuesday city reception will leave from School's front entrance, by the flagpoles.

Lennart Köhler

Anders Hjern

Sunday 15/6

17.00-20.00	Registration	Entrance hall, Nordic School of Public Health NHV
18.00-21.00	Welcome reception with a light meal	Ruckmans, on campus

Monday 16/6

08.00-12.00	Registration	Entrance hall, Nordic School of Public Health NHV
-------------	--------------	---

Lecture room - Aula

9.00 - 09.45		Welcome and introduction Nick Spencer, Lennart Köhler, Anders Hjern
