

ISSOP meetings

Prepared by Nick Spencer and Olivier Duperrex, 14.05.2019

1 Annual meetings - countries

In 1977, a group of paediatricians founded the European Society for Social Paediatrics in Lund (Sweden). In 2011, ESSOP became ISSOP : International Society for Social Paediatrics and Child Health.

By the end of 2019 during its 42 years of existence, professionals working with children will have exchanged views and debated on various aspects of the relations between social inequalities and children's health in 37 meetings held in 24 countries and 5 regions.

Please go to Annexes for a list of countries and the number of meetings.
